

Cadence OnCloud

Managed Cloud Service

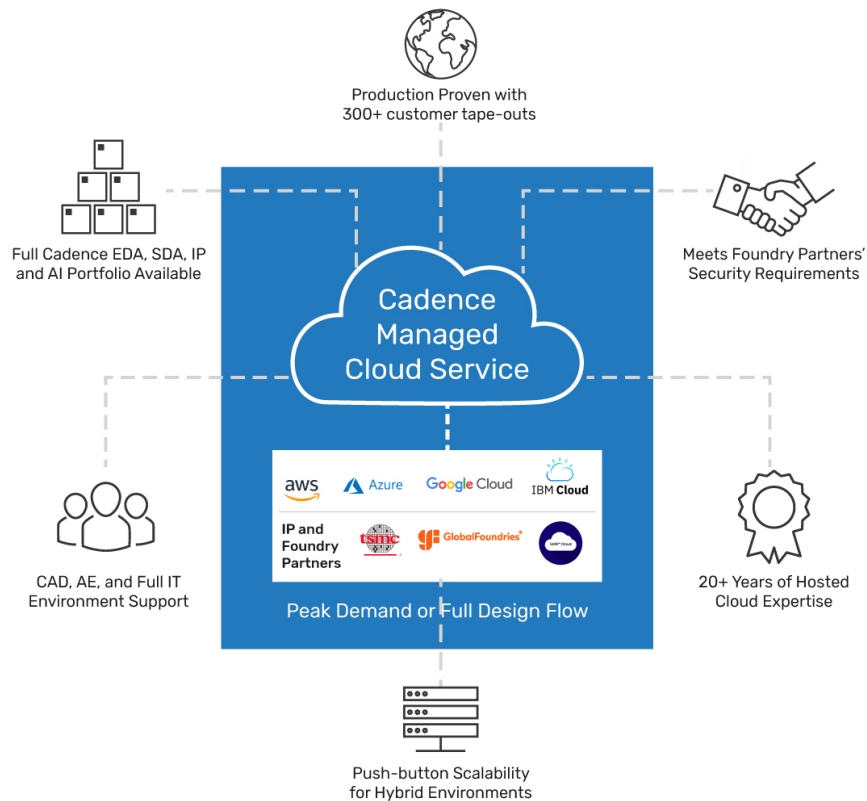

*Cost Efficient. Highly Scalable.
Turnkey EDA Environment*

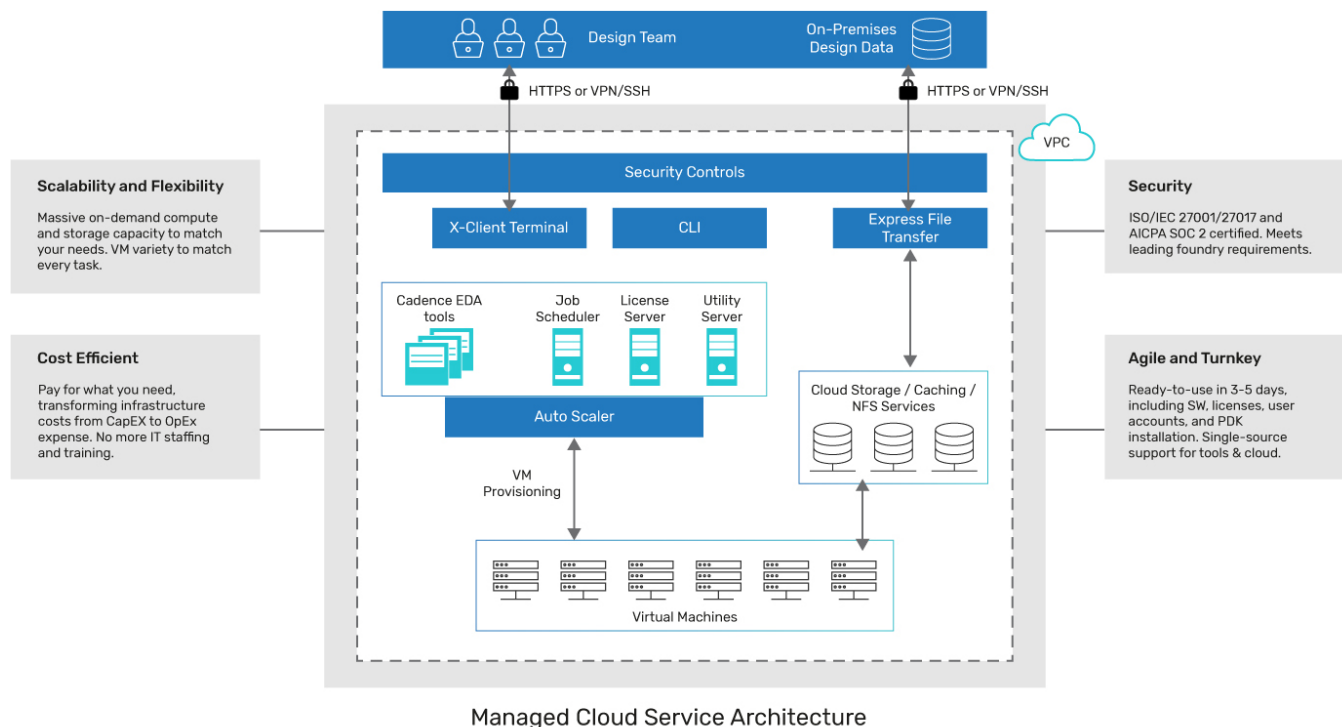

The Cadence Managed Cloud Service is an EDA-optimized industry-leading secured cloud platform providing production-proven technologies and methodologies to jump-start chip design, verification, and implementation projects. The solution is designed to tap into the power of the cloud without the IT burden of heavy lifting design files, setting up environment, and managing peak compute capacity needs. This turnkey platform is fully approved for advanced node development from leading foundries such as TSMC and GlobalFoundries.

Using a native Remote Desktop access or a standard web browser, customers can spin up their own private secured cloud environment, use pre-installed EDA tools, launch and monitor jobs, analyze results, collaborate with global design teams and supply chain partners, and sign off their designs.

Cadence team takes care of building a highly secured ISO-certified infrastructure with all software pre-installed including license management, to start the design project instantly, and provides peace of mind to customers with exemplary support from a team of highly specialized support staff.

Key customer benefits of Managed Cloud:

- ▶ Productivity: Up to 25X setup speed and 5X TAT
- ▶ Secure: ISO certified with encrypted data in transit and at rest and foundry-approved
- ▶ Hybrid Cloud: Seamless data access and management
- ▶ Turnkey Service: Reduce project risk and faster time to market
- ▶ Cost Saving: Scale based on project needs without upfront capital investment

Over 150 companies have leveraged this solution for their CAD and IT support needs, ensuring engineers spend all their time on core competencies without worrying about IT resources and managing their own environment. An ITAR-compliant version is also available.

SaaS business models and e-commerce self-serve options are also available with Cadence OnCloud Managed Service.

Jump-start your chip design project with this Cadence-Supported Ready-to-Use Environment for Quicker Time to Market NOW!
